OBJECTIVE

A motivated and enthusiastic fresher with a basic foundation in web development and user interface design. Currently pursuing a Master of Computer Applications (MCA) at Alagappa University and holding a Bachelor of Science in Computer Science from Sri Ramakrishna College of Arts and Science. Seeking an entry-level opportunity to learn, grow, and contribute to a supportive organization by developing user-friendly and responsive web applications while enhancing my technical skills.

EDUCATION

- **Sri Ramakrishna College of Arts and science** July 2022-Jan 2025
Bsc Computer Science
◦ CGPA:7.35/10.0
Coimbatore, India
- **Ayira Vaisya Higher Secondary School** 2011-2022
Secondary Education
paramakudi, India

PROJECTS

- **Screenshot to Code (AI Automation Tool)** March 2025
B.Sc Final Year Project (Python, Deep Learning) 
 - Engineered an AI-powered tool that converts UI design screenshots into functional HTML/CSS code.
 - Utilized Computer Vision (OpenCV) and Machine Learning (TensorFlow) to detect UI elements with high accuracy.
 - Automated the front-end development workflow, significantly reducing manual coding time for static pages.
- **GPR Jewellers E-commerce Website** Feb 2025
Freelance/Client Project (Full Stack) 
 - Built a comprehensive e-commerce platform for a jewellery business featuring a custom admin panel.
 - Implemented dynamic product management (Gold/Silver/Diamond), drag-and-drop image uploads, and live gold rate updates.
 - Designed a responsive UI with Bootstrap, ensuring seamless shopping experiences across mobile and desktop.
- **S.Naganath Timber Business Website** Dec 2025
Freelance/Client Project 
 - Developed a digital catalog and calculator tool for a 30+ year old timber business.
 - Integrated WhatsApp API for direct customer inquiries, resulting in a **30% increase in digital leads**.
